Re Patent Application Serial No. 10/628,564
Atty Docket No. 13909-026002

cc David Jordan

Examiner Chavis,

Thank you for agreeing to conduct a personal interview with David Jordan and me on Wednesday, October 11, 2006, at 10:00 a.m. to discuss U.S. Patent Application Serial No. 10/628,564. As agreed, I have prepared the following proposed interview agenda.

In the interview, we intend to discuss why the applied reference, "E-Business Process Modeling: The Next Big Step," by Aissi *et al.* is not seen to disclose, teach or suggest the features recited by the rejected claims. In particular, we intend to discuss why the applied reference is not seen to disclose at least the features recited in dependent claim 13 (and corresponding claim 22).

Upon reaching agreement with regard to the lack of such teachings, we intend to further propose modestly amending the independent claims, if necessary, to incorporate one or more of these contradistinctive features.

We look forward to discussing this application with you.

Best Regards,

Dana L. Christensen
